CENTERS

TELEMEDICINE

On call

Centers Telemedicine provides examinations, evaluations, assessments and treatments right at the resident's bedside. Our patient-centered programs ensure early treatment of conditions, helping to reduce emergency room transfers and rehospitalizations.

On site

Centers Telemedicine assigns to each facility a dedicated on-site practitioner who gives each resident access to a team of primary physicians and medical specialists—cardiologists, pulmonologists, dermatologists, endocrinologists, psychiatrists and more—on call at the touch of a button.

On your side

Centers Telemedicine is redefining bedside manner. By making it possible to diagnose and treat patients in place, we help you focus on what really matters—delivering superior health care to your residents.

Centers Telemedicine evaluates and treats:

- Behavioral Issues (Limiting Psychotropic Medication Usage)
- Change in Mental Status
- Diabetes Management
- Fall Evaluations
- Fever/Infections (Pneumonia, Urinary Tract Infections, Wound Infections, Cellulitis, Sinusitis)
- Gastrointestinal Symptoms
- Lacerations/Skin Tears
- Medication Monitoring and Reconciliation
