

Patient Experience Week celebrated at Slate Valley Center

Certified nursing assistants Mary Rudenko, Clara Lapointe and Jess Leddick.

During the week of April 24, Slate Valley Center was among many facilities throughout the country celebrating Patient Experience Week.

The Granville facility did this by highlighting many of the incredible stories and experiences that its residents have shared with the staff.

Leadership at the facility and from parent company Centers Health Center saw that week as a perfect oppor-

tunity to thank their excellent staff who work tirelessly to make all of those experiences possible.

"It's such a happy time, a time to reflect on our residents who make up our lives as we do the same for them," said recreation director Andrea Kelley. "Yes, it's always all about care, but so much more goes on here where we share so many happy moments and have fun as well. That's the beauty of it all."

Nursing supervisor Anne Sorokey Nilsen with resident Joan Hall.

Resident Eva Barrett.

Resident Carmen Badyna and nursing supervisor Anne Sorokey Nilsen.
